NEW HAVEN ROAD WILL SHOW SURPLUS FOR NINE MONTHS

Deficit Will Be Offset by Trolley and Steamboat Interests—Earned Over 8 Per Cent.

New Haven, July 14.—While the report of the New York, New Haven & Hartford Railroad Co. for the nine months ending March 31 showed a deficit after dividend payments of \$3,041,061, it is stated at the "Yellow Building" that the company will close the year with a margin in excess of the 8 per cent. dividend which the stock is called upon to pay. This will come as good news to the large number of local shareholders of the stock who have been "staying with it" since Mr. Mellen took hold of the proposition. The unfavorable report for the first three quarters of the fiscal year were due to interest charges on bonds which really represent the capitalization of trolley, steamship and power companies. Net earnings of these companies are now making an offset. The road is now in a transitional stage to a merged railroad and industrial corporation. The developments of the latter class are placed at about a third of its total capitalization, or something like \$357,000,000. It has been doubted as to whether these earnings during a period of business depression would prove as stable as those of what may be called a railroad. The company's large issue of new capital stock took place principally during the four fiscal years ended with June 30, 1908, and simultaneously fixed charges increased from \$8,664,000 in 1905, to \$17,889,000, while the proportion of net earnings to total capitalization fell from 13.1 per cent.

to approximately 7 per cent. The apparent purpose of the New Haven's large increase in capitalization was to check competition by acquiring control of competing transportation companies. The acquisition of control was in many instances rather expensive, but the prospect now is that the results obtained during the current year will demonstrate the New Haven's ability to make these properties pay for themselves.

The balance for dividends this year will apparently be as follows: June 30, 1909, \$7,924,000, as compared with \$5,266,000 in 1908, an increase of \$2,658,000. "Other income" from outside sources is giving a helpful boost. It includes the following:

Outside operations \$1,212,089
New England Steamship Co. 498,674
The Connecticut Co. 2,745,758
Dividends, interest and rents received 3,862,151
Total \$8,318,672

COUPONS WILL REPLACE CARD FORM TICKET

New Haven Railroad Contemplating Important Change in Commutation Ticket.

It is said to be the intention of the New York, New Haven & Hartford Railroad to make a change in the form of its regular commutation tickets in the near future.

It is planned to continue the issue of commutation tickets sold at the scaled rates to the coupon form. Each coupon book will contain sixty coupons, allowing one round trip each day, and will be good for one month from date of issue, and will be good for Sunday transportation as well as on week-days.

They will be sold at the same rates heretofore applying for card form. The card form of tickets which is

not good for Sunday transportation and only for the calendar month is to be discontinued.

FREAKS OF LIGHTNING

Twelve Bolts Strike House, Shocking an Occupant Each Time, Killing Head of the Family.

Santa Fe, N. M., July 14.—News of a remarkable play of lightning in Chaves county last Sunday has reached here. During a thunderstorm lightning struck the house of W. E. Rahl, a homesteader, and R. N. Rutherford, who with his family was at the Rahl home, was killed.

Following this, at intervals of about one minute, eleven more bolts struck the house, each shocking an occupant though not fatally. There were thirteen persons in the house at the time of the storm.

The last stroke set the house on fire, but the flames were extinguished by Mrs. Rahl with pails of water.

POINTS OF INTEREST

Many People amply able to pay cash, prefer to avail themselves of the easy payment plan, for all kinds of house furnishings offered by the Boston Household Supply Co., 1277 Main street.

Matinee Excursions. The every week day matinee excursions on the steamer Park City to Port Jefferson are proving more popular this season than ever. Many excursion parties are taking advantage of this half day's outing trip and enjoying an invigorating and pleasant sail on the Sound. The steamer leaves the wharf at the foot of Fairfield avenue at 1:30 p. m. The trip across the Sound takes one hour and thirty minutes, arriving in Port Jefferson at 3 o'clock.

Ample time is allowed in this ship-building town to see its points of interest. The return trip is made at 4:30 p. m., arriving in Bridgeport at 6 o'clock. Special low fare every week day.

THE SMITH-MURRAY CO.
